

ANY CAR at any price which you choose to compare with the 1913 Cadillac will be honored by the comparison.

The handsome lines, the deep, soft upholstery, the yielding springs, the riding qualities of almost velvety smoothness; the quiet engine of abundant power, the flexibility and the remarkable ease of control; the standardization of parts, the durability, the simplicity and the economy of maintenance; the practically 100 per cent. efficient Cadillac Delco electrical system of automatic self-cranking and electric lighting, now in its second successful year on the Cadillac; these and almost countless other marks of distinction stamp the Cadillac as a car which leaves nothing to be desired, nothing really worth while which a greater expenditure will procure.

Demonstrations by appointment.
Literature on request.

DOES your competitor down the street use a Burroughs? Is he finding out more of the fundamental facts about his business than you are about yours?

Hurry up! A Burroughs is bought by someone somewhere every six minutes.

No business man buys an adding machine unless he knows just how it is going to be used.

A demonstration of what a Burroughs Adding Machine will do for you, in your office, on your own work, costs you nothing except the asking.

If we cannot show you, we do not expect you to place an order. In fact, the word "order" won't be mentioned by us unless you wish it.

May we have 10 minutes of your time?

WE FINANCE THE TRUCK BUYER

UNIVERSAL MOTOR TRUCK CO. FINANCIAL DEPARTMENT
1111 BROADWAY, NEWARK, N. J.

A deposit of \$1,000.00 down, plus 1% of the cost of the truck on delivery, the balance in 24 payments of \$10.00 a month, plus what you will have to pay if you renter a truck by the day. This applies to the two year plan. See 1111 B.

Why We Can Sell on the Time Payment Plan

Universal Motor Trucks are good makes. They are guaranteed.

We have cost less and more selection of vehicles for selling and purchasing a truck as well as a new one, old one.

Universal Trucks are guaranteed and are designed for the business. They are built for the business and are built for the business.

They are a better than a new one, old one.

Universal Motor Trucks are good makes. They are guaranteed. They are built for the business and are built for the business.

There is a lot to get in, quantity about. They are built for the business and are built for the business. They are built for the business and are built for the business.

ORGANIZED in 1864 to conduct a general banking business, this bank by its adherence to safe sound and progressive methods has won the approval and confidence of the public to an unusual degree. Its record reflects the consideration of all firms, corporations and individuals attending to business with it.

We are constantly widening the scope of our business to meet the requirements of our patrons, and offer to them every facility within their power, business and responsibility warrant. Our Savings Department pays 4% interest, compounded and added to the account semi-annually. Our Foreign Department is prepared to forward money and accept to legal or financial business in all parts of the world. Our Safe Deposit Boxes provide a secure place to keep valuable papers, documents, etc.

Call and inspect our new building. We will take pleasure in showing you about, and explaining the advantages of banking with us.

is one of the

Chief Manufacturing Cities

in the

United States

The following pages advertise her various
products and give a good idea
of her importance in the
Industrial World

You need this book

You *need* the 1913 Newark City Directory

Whatever we *need* we pay for, whether we buy or not. He who *needs* a City Directory *pays* for it in one way or another

To be sure, the man who doesn't subscribe to the City Directory *saves* six dollars, but how much does he *lose*? He loses time and time is the *chief* method of reckoning money and value.

You install a telephone, buy a typewriter, invest in an adding machine, because *you need them*. Why do you *need* the telephone, the typewriter and the adding machine? You *need* them because they *save time*. By *saving time* we lengthen life

You don't go *across the street* when you want to telephone, *why* should you do so when you want to use the Directory?

The City Directory costs you less than two cents a day. Can you *afford* to be without it?

What It Contains

The information in the City Directory is divided into five sections, arranged to fit home table references.

The GENERAL DIRECTORY contains the names of a multitude of firms. Address of age, address, telephone, and so on, is printed in particular and a list of names is given in a table of **YOUR NAMES**.

The STREET DIRECTORY gives the location of a street and shows what other streets it is from or to. It also gives the names of the streets in a list. It is the first book to be published in Newark since 1907. It is a new edition of the 1907 edition, according to the new city plan and is a new edition of the 1907 edition.

The BUSINESS DIRECTORY contains the names of the firms and the names of the firms. It is a new edition of the 1907 edition, according to the new city plan and is a new edition of the 1907 edition.

The MISCELLANEOUS SECTION contains a list of the names of the firms and the names of the firms. It is a new edition of the 1907 edition, according to the new city plan and is a new edition of the 1907 edition.

The EDUCATIONAL SECTION contains a list of the names of the firms and the names of the firms. It is a new edition of the 1907 edition, according to the new city plan and is a new edition of the 1907 edition.

Leather That Don't Crack

The most important detail for us was fire-buffed hide. That means we had to keep our leather from becoming too soft. Leather with these advantages is **Dieffenbacher's** specialty. And we guarantee that no oil will come out. More especially, for carriage and auto upholstery coverings. We will send you samples of our leather without charge.

with a daily circulation of 75,000 is the best medium for the advertiser because it goes directly into the homes at a time when the family are together and can talk over intended purchases; and it reaches the buying public at a time when they are ready to consider what is advertised.

== THE == is popular alike with both
EVENING NEWS reader and advertiser because
it is metropolitan in every sense, being replete with features that interest every member of the family.

== THE == is also the recognized classi-
EVENING NEWS fied advertising medium in its field. The rate for this line of business is one cent a word; no advertisement received for less than twenty cents except employment wanted. For this class of publicity one cent a word, minimum ten cents.

New Jersey Freie Zeitung

NEW JERSEY'S OWN
GREAT GERMAN DAILY

PUBLISHED EVERY MORNING
ESTABLISHED 1858.

DAILY AND SUNDAY for Five-Cent news the "Freie Zeitung" has been an ever welcome morning visitor in the homes of the thousands of well-to-do German-Americans throughout the city and county.

As a first-class family newspaper, with a capable staff, and the Associated Press telegraph and cable service, it has a powerful influence its editorials and news matter being widely quoted and copied by other newspapers.

As an advertising medium, the high quality of its circulation, and the fact of its having an exclusive field produces excellent results for stores, real estate agents, banks, and every good business proposition, as its perpetually well-filled advertising columns plainly testify.

Newark is a German-American city and any advertiser who attempts to cover it without using the German-American newspaper for his daily calls himself off from the business of a very large proportion of the population.

THE UNIVERSITY OF CHICAGO

The 3811th Test Group, 1st Test Wing, 1st Air Force, is the only group in the world that is authorized to conduct the full range of nuclear testing. The group is currently conducting a series of tests to determine the effectiveness of the new nuclear weapons. The tests are being conducted at the Nevada Test Site, which is located about 65 miles northwest of Las Vegas. The tests are being conducted in a series of three phases. The first phase is the "zero yield" test, which is a test in which the nuclear weapon is detonated but no nuclear material is released. The second phase is the "low yield" test, which is a test in which the nuclear weapon is detonated and a small amount of nuclear material is released. The third phase is the "high yield" test, which is a test in which the nuclear weapon is detonated and a large amount of nuclear material is released. The tests are being conducted to determine the effectiveness of the new nuclear weapons and to determine the effects of the nuclear weapons on the environment. The first of these is the fact that the
 CO_2 concentration in the atmosphere
 has increased by about 30% since the
 1950s. This is due to the burning of
 fossil fuels, which releases CO_2 into the
 atmosphere. The second is the fact that
 the temperature of the Earth's surface
 has increased by about 0.5°C since the
 1950s. This is due to the greenhouse
 effect, which is caused by the increase in
 CO_2 concentration. The third is the fact
 that the sea level has risen by about
 10 cm since the 1990s. This is due to
 the melting of glaciers and ice sheets,
 which is caused by the increase in
 temperature.

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as 'distance'. The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system, which records the hand's position and movement time.

1. *Staphylococcus aureus* (10⁸ CFU/ml) was used as the test strain. The bacteria were grown in 10 ml of TSB medium at 37°C for 24 h. The cells were harvested by centrifugation at 10,000g for 5 min and washed with distilled water. The cells were then resuspended in 10 ml of distilled water and the suspension was adjusted to a concentration of 10⁸ CFU/ml.

the 1987 report to the American Public was not particularly well received. The American public was told that the United States was in a "state of national emergency" and that the United States was in a "state of national emergency" and that the United States was in a "state of national emergency".

Late in the afternoon of September 27,
 a number of the PWs at On the Hill 73 Expressway
 met
 Richard Thompson and Philip Lutz and the MA from
 the camp.

1. *Chlorophyll a* and *Chlorophyll b* content of leaves was determined by spectrophotometry using a Shimadzu UV-1601 spectrophotometer. The absorbance of the extract was measured at 663 nm and 646 nm. The concentration of chlorophyll *a* and chlorophyll *b* was calculated using the following equations: Chlorophyll *a* (mg/g) = 12.7 (A₆₆₃ - A₆₄₆) / 1000 and Chlorophyll *b* (mg/g) = 22.9 (A₆₄₆ - A₆₆₃) / 1000.

— *Chlorophyll a* and *b* were determined by the method of Lichtenthaler (1987). The total chlorophyll content was determined by the method of Arar and Cook (1980).

KEITH & SCHAEFER

With respect to the second question, I think the answer is yes. I think that the fact that the system is not a simple system, but a complex system, is a good thing. It is a good thing that the system is not a simple system, but a complex system. It is a good thing that the system is not a simple system, but a complex system.

The first thing I saw when I stepped
 out of the airplane was the sight of the beautiful
 city of New York. The skyscrapers were
 everywhere, and the people were so friendly.
 I was in luck. I had just found the perfect
 place to live.

1. The first step taken by the State was
 2. to set up a committee to study the
 3. situation in the State and to
 4. make recommendations to the
 5. Government. The committee was
 6. headed by the Minister of
 7. Education and was composed of
 8. representatives of the various
 9. educational institutions in the
 10. State. The committee held
 11. several meetings and conducted
 12. extensive research into the
 13. problem. It found that the
 14. situation was indeed serious
 15. and that immediate action
 16. was required. The committee
 17. recommended that the
 18. Government should take the
 19. following steps: (a) to
 20. increase the number of
 21. teachers and (b) to
 22. improve the quality of
 23. the curriculum. The
 24. Government accepted the
 25. recommendations of the
 26. committee and has since
 27. taken the necessary steps
 28. to implement them. The
 29. situation in the State
 30. has improved as a result
 31. of these measures.

ASBURY PARK POST OFFICE

IN 1874, GENERAL GRANT ESTABLISHED A POST OFFICE AT ALABAMA FARM. THE FIRST YEAR'S BUSINESS WAS SIX MILLION DOLLARS. THE NEW GOVERNMENT POST OFFICE COST, WITH THE GROUND, ONE HUNDRED AND THIRTY THOUSAND DOLLARS.

ASSOCIATION OF AMERICAN DIRECTORY PUBLISHERS

HEADQUARTERS, 203 EAST 12th STREET, NEW YORK

ORGANIZED NOVEMBER, 1895

OFFICERS

President, J. L. HILL, Richmond, Va.

First Vice-President, R. H. DONNELLEY, Chicago, Ill.

Second Vice-President, WILSON H. LEE, New Haven, Conn.

Secretary and Treasurer, W. H. BATES, New York

TRUSTEES

W. H. LEE, New Haven

WM. E. MURDOCK, Boston

R. L. POLK, Detroit

R. H. DONNELLEY, Chicago

W. H. BATES, New York

A. V. WILLIAMS, Cincinnati

J. L. HILL, Richmond

E. M. GOULD, St. Louis

W. G. TORCHIANA, Philadelphia

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST. To improve the directory business by the interchange of ideas, and by the exchange of competent employees.

SECOND. To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD: To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH. For the mutual advancement of the established and prospective interests of all who may become members of the association.

\$100 REWARD

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided the conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph W. H. Bates, Sec'y, 203 East 12th Street, New York.

The Selling Section of a City Directory

Is what the Store Window is to the Merchant—a place where people expect you to exhibit your goods.

**The knowledge of where
to buy goods is as
Important as where to sell them**

The City Directory is the BUYERS' GUIDE which is constantly being referred to by those wishing to buy goods as well as those wishing to sell, and is on the job 365 days of the year.

If you are not prominently displayed in the selling section and classified lists in this issue, call or write us and we will give you further particulars regarding display in the next edition.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

The first of these is the fact that the
 Journal of the American Medical Association
 has been the only one of the major medical
 journals to publish a regular column on
 the history of medicine. This column,
 which is edited by the late Dr. J. H.
 Hodge, is a valuable source of information
 on the history of medicine. It is a
 pity that the *Journal* has not been
 able to continue this column, as it is
 a valuable source of information on the
 history of medicine.

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard diet, while the experimental group received a diet supplemented with 0.5% of the active ingredient. The subjects were then subjected to a 12-week period of physical training. The results of the study are presented in the table below.

1. The first step is to identify the key components of the system. This includes understanding the hardware, software, and data involved. For example, in a web application, this might involve identifying the server, database, and client-side code.

1. The first group of authors (e.g., [1, 2]) considers the problem of the optimal control of the motion of a mechanical system with respect to the criterion of the minimum of the control energy. The control is assumed to be piecewise constant in time. The optimal control is determined by the method of the steepest descent.
